

Hello MISBO SCHOOLS,

There's no higher priority in education than helping your students feel safe and secure. At School Specialty, we have the products and expertise that support your safety and security initiatives. Those products include a wide assortment of metal and weapons detector technology, so you can focus your time and attention where it belongs – on creating an atmosphere where your students' talents can flourish.

Protecting your students and staff from armed encounters within your premises is paramount. Consider deploying weapons or metal detector at controlled points of entry into your facilities. Here are our weapons and metal detector offerings:

- [School Specialty CEIA OpenGate and Metal Detectors](#)
- [Learn About School Specialty's WMD433-Metal Detector](#)
- [Learn About School Specialty's WMD318-Metal Detector](#)
- [Learn About School Specialty's ZKA Hand Held Metal Detector](#)

To learn more about School Specialties Safety and Security solutions please review the attached School Safety Competitive Advantage brochure or for more information, please email our School Safety category lead, Joseph B. Wilson at joseph.wilson@schoolspecialty.com, Joe is a retired Pennsylvania State Police lieutenant, SWAT Commander, and Deputy Police Chief. We look forward to partnering with your school.
