

Be prepared with essential fire protection services

Being safe and prepared has never been more top of mind. With Cintas, one process and one consolidated provider help you manage the testing and inspections of your equipment and systems — giving you the confidence of consistent, trusted service with fewer visits to help minimize contact.

YOU'LL BENEFIT FROM:

Fire Extinguishers

Exit and
Emergency Lighting

Fire Alarm

Fire Alarm Monitoring

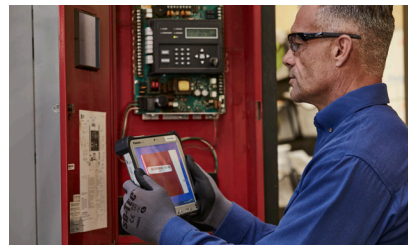

Fire Sprinkler

Kitchen Suppression

Special Hazard
Suppression

A network of technicians trained to service an extensive list of fire protection systems — all while respecting your health and safety protocol requests.

Industry-leading customer service — with 24/7 on-call support, advanced reporting technology and bundled offerings.

Consistent, detailed documentation — including digital proof of work that reduces touchpoints, regular service reminders, inspection reports and more.

Fully integrated service helps limit the number of vendors you need, and aligns inventory and quality control for your test and inspection needs.
