

CDW BLUEPRINT TO DESIGN[®]

The Bridge To Creating
Collaborative Spaces

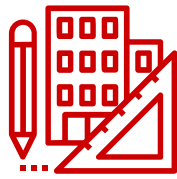

Give Us Your Blueprint And We Will Design A Modern Collaborative Space, At No Charge!

Increased efforts to integrate technology into learning environments have encouraged a shift in thinking about the impact the physical space has on instructional goals and success. Education leaders across the country are embarking on exciting changes involving:

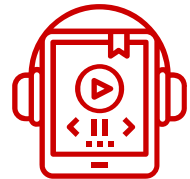

New School
Construction

Building
Remodels

Classroom
Renovation

Media
Centers

With the CDW Blueprint to Design[®] four step offering, getting a customized rendering for your space has never been easier!

1

Two hour consultation with an Education Strategist, trained in space design and pedagogy, to understand the goals and vision behind your project.

2

You send us a blueprint (or floor-plan) and photos of the space.

3

CDW will work with a dedicated school design engineer to complete 2D color renderings and options.

4

CDW will deliver a completed design package back to you, perfect for presenting to leadership/stakeholders, or for including in your strategic plan
