

6 Tips to Modernize Your Spaces

1

Provide Choice through Multiple Modalities

- Quality of the furniture, interesting and ergonomic tables, and seating support a sense of ownership and provide multiple ways of learning.
- Gives the option for the student to choose the best environment for their learning style.

2

Flexibility and Mobility

- Adaptability
- Remember “think” “pair” and “share”
- Form follows function

3

Creative Spaces to Share Work

- Incorporate creativity with different styles of surfaces.
- Student becomes more engaged in a collaborative activity.
- Surfaces can also be wall panels or mobile easels.
- Multiple options for collaborative learning.
- Collaborative spaces are only limited by imagination.

4

Integrated Technology

- Think about applying it into certain areas of a space for students and teachers to charge up during the day.
- Some can be done with mobile battery packs making it easy to move around the room cord-free.
- Accommodate current technology within a classroom.

5

Start Small - *Greatest student impact for your investment*

- Start with a section of your campus. Create focal points.
- See how students react and build from there.
- Students will notice and appreciate improvements made.
- They will see the school investing in them and in turn you will see improvements in grade and behavioral issues.

6

Add Color

- Brighten up spaces to make area inviting and engaging.
- Utilize the right colors for the right environments - based on the most current research.
- Helps stimulate the brain and retain memory.
